

Crystal Metaphysical Encyclopedia Quick Reference Guide

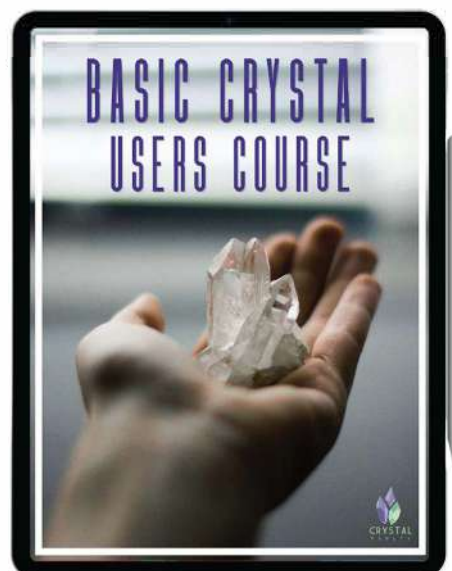

The world of crystals is fun, effective, and ever-expanding. New crystal finds are happening all over the world. Crystal healers, crystal astrologers, crystal alchemists, and crystal practitioners of every kind are constantly experimenting and teaching us new methods for finding ways to bring the magic of crystals into our everyday lives.

The first step to diving into the crystal world is choosing a crystal that matches your specific needs. The more specific you can articulate your need, the better your chance of getting the right crystal or crystals. This guide will help you quickly match specific needs with their respective crystals. There are many crystal types, and the discoveries are always growing, so this guide will provide you with the most popular.

Our Basic Crystal Users Course ebooklet contains more detailed information about choosing your crystal and much more.
